

# Pre-Hair Checklist

---

Hair is Clean & Dry. We recommend a blowout the day before so hair is smooth/prepped for professional styling.

Do Not sleep with wet hair the night before your event as this will cause Frizzing and Static that can be difficult to combat.

Be sure to discontinue Hair Mask, Oils or Hair Treatments 3-4 days prior to your event to prevent any product build up on the hair.

No Flat Iron use the week leading up to your event.

Provide Inspiration photos to your Hairstylist of the style you want to achieve.

Communicate with your stylist how your hair normally holds a style, reacts to products, and how you style your hair on your own.

Be open to the recommendation of Hair extensions by your stylist. Many styles require Hair extensions not only for fullness & length, but to ensure the style holds all day long!

If choosing to add Hair extensions, we recommend purchasing from Popcorn Beauty or Bellami. Please provide them on your trial date

*Thank you!*
